

## PRESS RELEASE

### ***Accipiter Showcases at Commercial UAV Expo 2025***

*Date August 12, 2025*  
*Orchard Park NY*  
***For Immediate Release***

Accipiter Radar is showcasing their drone management products and services at the Commercial UAV Expo, September 2-4 at Caesars Forum, Las Vegas. Visit Accipiter at Booth 1127 where VP of Sales & Marketing Simon Jerome and US Managing Director Mark Vilardo will be looking forward to meeting associates.

Accipiter offers Beyond-Visual-Line-Of-Site Detect and Alert (DAA) solutions for critical infrastructure safety and security. Engineered on Accipiter's Radar Intelligence Network™ platform technology,

the system provides data processing, query and retrieval for actionable intelligence tailored to specific missions.

For surveillance of nuisance and nefarious drones, Accipiter's sensor agnostic, drone detection solutions automatically detect, track and alert to uncooperative targets for counter drone applications including prisons, airfields, event venues and building protection.

"Accipiter develops affordable smart surveillance solutions to protect airports and facilities from drone intrusions and integrate seamlessly with safety management, business intelligence and digital twin systems" noted Simon Jerome. "We are thrilled to work with airports, energy providers, and law enforcement as well as various authorities helping to ensure safer flight of both drones and aircraft" he added.

The Commercial UAV Expo, presented by Commercial UAV News, is the leading international trade show and conference focusing on the integration and operation of commercial UAS. This year's theme for the event is "Drones in Action, Current Realities and Future Frontiers."

## About Accipiter Radar

We believe a safer world is a better world. That's why we help keep you safe. We do this by giving safety and security practitioners better awareness and understanding of the threats they protect us from. To achieve this, we design smart surveillance networks engineered to monitor the environment and characterize the behaviour of *targets* such as vessels, aircraft, drones, birds, and vehicles, as well as distributed phenomenon such as weather, waves and ice. Accipiter Radar is a North American company who sells and operates its smart surveillance networks around the world to provide all domain awareness for 21st century applications in homeland security, aviation safety and security, and environmental protection. Accipiter has been *Targeting a Safer World*® for 30 years and has won business from of all levels of government in North America, as well as major corporations and governments in various parts of the world.
