

## NOTICE

### ***Accipiter continues to put health and safety first during COVID-19***

*April 2, 2020  
Niagara, ON*

Accipiter Radar is all about Targeting a Safer World® and our response to COVID-19 is no different.

As an essential business, designated by Government Order pursuant to the ***Emergency Management and Civil Protection Act (R.S.O. 1990)***, Accipiter Radar is keeping critical services operating to support our customers who also are essential and protect and support our citizens.

We are here to support you as best we can.

At Accipiter Radar we are monitoring the COVID-19 situation daily and have implemented protective measures to address the risks posed to our employees and stakeholders. We have a plan in place that we will continue to update as we respond to this pandemic event.

- For most functions, we have adopted a remote-work model for our staff;
- We have imposed strict travel restrictions and self-isolation requirements; and
- We have restricted access to our facilities and have implemented heightened hygiene measures and physical distancing protocols for our on-site staff.

These measures will remain in place as long as it is prudent.

We are doing our part to help mitigate the spread of COVID-19 as we work through this together. Please be safe.

Dr. Tim J. Nohara, P.Eng.  
President & CEO
