

PRESS RELEASE

Local women's Rowing Team competing in Prestigious Royal Henley Regatta, England

June 24, 2024

E.L. Crossley Women's Rowing Team

*Ontario, Canada
For Immediate Release*

Accipiter Radar is proud to be a sponsor for the E.L. Crossley Senior Women's Rowing Team as they race for the Diamond Jubilee Challenge Cup at the prestigious and historical Royal Henley Regatta next month in England.

"We are thrilled to have the opportunity to support our local athletes as they take part in this international competition," noted Accipiter President and CEO Dr. Tim J.

Nohara, "these dedicated athletes are representing our region, province and Canada with determination and as proud neighbours, we want to wish them the very best of luck at this event."

The team of 65 rowers has been incredibly successful over the years winning 16 gold medals at the Canadian Secondary School Regatta, 4 silvers and one bronze for a total of 21 medals. In the United States, the team has won golds in two regattas, the Stotesbury Cup in Philadelphia and the Head of the Charles in Boston where they also took gold in all entered races. As a local company that deploys innovative surveillance systems globally, contributing to the success of remarkable athletes like the E.L. Crossley Senior Women's Rowing Team aligns well with Accipiter's values and mission.

The Henley Regatta was established in 1839 and is visited by more than 300,000 people each year with rowers from around the globe taking part in various races. For more information on the event please visit their website at <https://www.hrr.co.uk/about/>. You can follow E.L. Crossley Rowing Team progress on their Facebook page at <https://www.facebook.com/p/EL-Crossley-Rowing-100064197264517/>.

Go Blue and Gold!

About Accipiter Radar

We believe a safer world is a better world. That's why we help keep you safe. We do this by giving safety and security practitioners better awareness and understanding of the threats they protect us from. To achieve this, we design smart surveillance networks engineered to monitor the environment and characterize the behavior of *targets* such as vessels, aircraft, drones, birds, and vehicles, as well as distributed phenomenon such as weather, waves and ice. Accipiter Radar is a North American company who sells and operates its smart surveillance networks around the world to provide all domain awareness for 21st century applications in homeland security, aviation safety and security, and environmental protection. Accipiter has been *Targeting a Safer World*® for 30 years and has won business from of all levels of government in North America, as well as major corporations and governments in various parts of the world.
