

ACCIPITER RADAR TECHNOLOGIES INC. QUALITY POLICY

Accipiter Radar is committed to providing affordable and reliable Surveillance-to-Intelligence™ solutions to the safety & security practitioners we serve (our customers).

We are committed to meeting the requirements of ISO 9001 by continually improving our processes, products & services and to the timely resolution of quality deficiencies by empowering and training our team members to meet our quality objectives.

We proactively identify risks & opportunities that could adversely affect our organization or its interested parties and establish mitigating controls that protect our stakeholders and customers.

Our top management takes responsibility for our quality management system and reviews its implementation, status and effectiveness on a regular basis.

At Accipiter, we are committed to Quality in everything we do.
